

# **Extension of preservation (fax to +31 10-2314759)**

Requests for extension of preservation will only be handled under following conditions :

1. Extension of preservation can only be requested for: soil & sludge (due to legislation AP04 / Building materials cannot be stored any longer then the given term).
2. Extension of preservation needs to be requested 4 working days before the original date of destruction of the samples.
3. Extension of preservation is for a maximum period of 6 months starting at the day of delivery.
4. Extension of preservation can only be requested by means of this form, which need to be filled out clearly, fully and signed. Incomplete filled out requests for extension of preservation will not be carried out!
5. Complaints concerning the execution of a request for extension of preservation need to be submitted within 8 days after starting analysis.
6. Costs for extension of preservation can be found in our General Pricelist.
